

## SOMEBODY CARES

MOBILE OUTREACH CENTER

Mobile Outreach • Connecting • Coordinating • Recovering • Rebuilding Lives

Volume 2, Issue II

February 2014

### **Praise the Lord! The work has started!**

In our last newsletter we told you about the building that we have received and shared our vision for its future. We are very excited to say that the preliminary work has started!

A precious man from our church, Skip, shared his construction talent with us for several days. Much of the removal of the damaged floor has been done!

While the damage was a little more extensive than we anticipated and termites were discovered during the work, we are now ready to start the re-construction and repairs in the main room to make the flooring solid!

The Lord granted us incredible favor with Art, owner of local company, Results Pest Control. Once he heard the vision, he agreed to do the termite treatment at a reduced rate! We are continually blessed by the people of God that love Him and give so generously to see His work done! Thank you Skip and Art!

### **Prayer MUST be the main thing!**

Over the past few weeks, the Lord has significantly increased my burden to see the Community Prayer center as the MAIN THING!

My Spiritual dad, Doug Stringer teaches that united prayer, across racial and denominational lines, is the most effective catalyst to community transformation. I have seen the power of the unified Body of Christ praying and working together. The Lord has reminded me that without HIS PRESENCE our labors will be without impact! As the Psalmist said in Ps. 127:1, "Unless the Lord builds the house, They labor in vain who build it; Unless the Lord guards the city, The watchman stays awake in vain."

In mid February, I have been invited to share our vision for the community prayer center with local intercessors, crossing denominational lines. Please pray for God's favor and for me to paint the vision clearly so that they who hear it may be able to run with it!

Completed Compost bins....ready for material

Also, fellow garden professional and enthusiast Richard, along with his son Aaron, picked up and delivered donated pallets and leaves to the back yard. When Richard and his son left, a compost bin was fully constructed and ready to receive the many bags of already donated leaves and cut grass. When the gardens go in, we expect to have some GREAT compost that is ready to use. Thank you Richard and Aaron! Thank you Cynthia for all the grass and leaves that will become compost for the new gardens.

## We envision the following uses for the building:

- ◆ Community Prayer Center
- ◆ Training Center
- ◆ Community Garden
- ◆ Rise To the Time Offices
- ◆ Disaster Resource storage

## How you can help:

- Pray for the vision to become reality- For the sake of the Kingdom
- Cash Donations- Total material costs for repairs/ remodeling is currently estimated at a minimum of \$10,000. There will also be additional expenses for the community garden set up.
- Gifts in Kind- Computers, tables, chairs, sound equipment, etc.
- Volunteer your time- some repairs require skilled labor, but many don't.

The Vision...after completion!
